

Technical Data Sheet

Code: BM-GN4

Description

Used for construction, scaffold protection, protect the people from the falling debris or materials, keep the construction site safe and clean.

Features:

- Extremely high strength, durable in outdoor climates
- UV Treated for prolonged exposure to the sun
- Easy to install horizontal and vertical
- Flexible temperature range
- Recyclable and Durable

Materials

Material	HDPE (High Density Polyethylene) UV Treated
GSM	70 GSM
Shade Factor	70%
Width	4 Meter
Length	50 Meter
Color	Dark Green
Packaging	Rolls in clear bag with label

Typical Application

Protection around construction building
Protection around construction sites
Temporary barricade
Block off property & unfinished buildings
Dust Proofing

Country of Origin

China
