

Technical Data Sheet

Safety Spectacles WR P620

Description

WR P620 is an innovative safety spectacles with high light conductivity to ensure perfect vision at all times. It is lightweight and comfortable in a smart and fashionable design and provides light impact protection with a range of frame and lens tint options such as Clear & Dark.

Features:

- Two pieces molded lenses, polycarbonate materials, soft and non-allergic nose bridge and temple tip inserts, lightweight glossy black nylon frame, provided low energy impact protection.
- UV protection
- Anti-scratch lens coating improves longevity of lens in dusty environments.
- Anti-fog (AF) lens (clear & amber) provides improved lens performance in humid conditions
- Light impact resistant
- Flexibility to integrate with Protector head and hearing protection

Approvals

CE EN 166 & ANSI Z87.1

Application

Safety spectacles are intended to shield the wearer's eyes from impact hazards such as flying fragments, objects, large chips, and particles. Workers are required to use eye safety spectacles with side shields when there is a hazard from flying objects.

The frames of safety spectacles are constructed of polycarbonate and fitted with impact-resistant lenses.

Packing

1piece/polybag; 12pieces/box; 25box/carton
Measurement: 81x25x52CM, GW: 14.5Kgs, NW: 13.5Kgs

Product Origin

Taiwan
