

Technical Data Sheet

Fire Blanket

XU-107

Description

Fire Blanket consist of 2 layers of woven glass fiber and an inner layer of fire retardant film. It is fast and efficient way to control one of the most dangerous types of domestic fire.

Features:

- Comes in storage pouch
- Easily mounted – Suitable for hanging inside of cupboard door
- Quick release tabs
- Easy and fast installation

Approvals

- EN 1869:1992

Health Hazard Information

- Eye (contact) – Dust can cause irritation to eyes when handling cloth.
- Skin (contact) – Cloth can irritate. (Largely confined to cutting, sewing or handling).
- Inhalation (breathing) – Note respirable but dust masks may be beneficial in areas where high dust levels occur.
- Ingestion (swallowing) – Non-toxic (extensive studies have revealed no series effects)
- Other Health Hazard – There is no credible evidence of other health problems however it would be wise to maintain worker exposure at a minimum level, particularly where trimming, cutting, sewing or folding are being conducted.
